

Igor Lyman  
(Berdyansk State Pedagogical University)  
the average score on questionnaires

Questionnaires were completed by students of the first (15 students), second (12 students) and sixth (5 students) years of social and humanities faculty (historians) of Berdyansk State Pedagogical University. For greater objectivity questionnaires were administered by another teacher (the assistant). As it turned out, because the first question in the questionnaire is not enumerated, most students missed it. Since the survey was conducted anonymously, to correct this omission after putting of questionnaires is not possible.

**1. 4,41**

Explains in detail the methodological base of the discipline  
Informed in detail about the structure of the discipline  
Makes us interested in his subject from the first class  
The main feature – structurization  
Introduced at the first lesson  
Takes the time to explaining the specifics of his subject

**2. 4,29**

At the beginning of the study of subjects forms of control and evaluation criteria, reporting are explained  
Immediately informs the form and criteria for evaluation

**4. 4,53**

At the lessons current trends in the discipline are explained. Latest books are used.

In the classroom students get information on the most advanced achievements of science and historical concepts

Uses the latest achievements of historical science, including his works

Each lecture is interesting, at each lecture I discover something new

Uses both contemporary literature and previous studies. Tells interesting, fascinating.

Always

Always tells everything new in the discipline

Publishes new scientific editions

I got to know about new websites and books that assist in the preparation

He has a special kind of seminars

Yes, introduces. This is even interesting, although the material is not exactly interesting.

#### **5. 4,35**

brainstorming

discussions

problematic situations,

interviews

role games

case study

scientific volleyball

#### **6. 4,66**

In classes there are discussions with the active participation of students who express their thoughts and views

Actively asks questions to students and provokes them to answers

At each lecture and seminar elements of discussion are used

Listens carefully to everyone's opinion

Lectures often held in the form of questions-answers that raises working capacity and activity of students

Always interesting discussions occur, many students are involved

Lectures are based on this

discussion is taking place at almost every lecture

It was the reason why I gives "5" for the first question [far ahead other teachers]

About Euromaydane etc.

#### **7. 4,54**

Conducts scientific conferences with students

And helps in any scientific question

Encourages the search for interesting facts, activates scientific work of students

Very interesting studying!

Strives to improve our intelligence and curiosity

It was another reason why I gives "5" for the first question [far ahead other teachers]

**8. 4,67**

Detailed answers to all questions of the students, attentive to the position of everybody

Easy to contact, answer all the questions

Answers all the questions in detail and clearly

Answers all questions succinctly and interesting. I enjoy to talk to him.

Always

Answers the question to every student

Yes. Very

Answers all questions

All my questions have been answered

Next reason why I gives "5" for the first question [far ahead other teachers]

Answers so that we all understand immediately

He is very attentive and likes when students ask questions.

Always 100%

**9. 4,68**

Utterances of students are always encouraged

Listens carefully to students

Listens and encourages ideas and opinions of students

Students have the opportunity express their viewpoint and share their knowledge

Always

Encourages the best students

I can quite freely express my opinions

Very responsive

The same (Next reason why I gives "5" for the first question [far ahead other teachers])

loyally evaluates personal opinions of students

**10.4,51**

Always objectively evaluate knowledge of students.

Substantiates evaluation of the students

Objectively and correctly evaluates students

Evaluation depends not only on the exam, but also on working for the entire course study

He is the most objective. Always evaluates deserved.

Always  
Especially in tests and examinations  
Completely  
Evaluates correctly  
Should we wait for the exam???  
Always objective evaluations

**11.4,54**

Yes, relationships with students based on respect and equality  
Maintains good relations  
They are just great. He is the best. We love Igor Igorevich!  
Communicates with students on an equal footing  
I think that almost all students of our faculty respond very positively about this teacher!  
Constantly devote time to students to answer their questions  
No conflict, attitude is very good  
Excellent teacher  
Should we wait for the exam???  
Yes, students like to deal with this teacher  
I attended his classes with great pleasure

**12.4,31**

Students get extensive knowledge in the individual assignments  
We write resume  
There are enough tasks (individual)  
there is a choice of individual tasks

**13.4,06**

During the group discussion, students have mastered the material deeper  
It is easier to work in a group  
Not exactly  
Group brain-rings, intellectual volleyball  
He actively works with students in the classroom

**14.4,09**

Always can find time for students outside of classes  
Always finds time for students  
Finds the time, but not always  
I can contact him at almost any (training) time  
Repeatedly helps outside classroom  
We can refer to him with any scientific problem

**15.4,59**

Constantly informs and promotes the participation of students in international educational projects

Always!

Helps students to participate in various international projects

Gives a lot of information about international projects

At the very first lessons

He makes emphasis on it at each lesson

excellent informed students about opportunities

#### **16.4,41**

Tries to interest students, using a personal approach

The teacher interested me in this disciplines because of the interesting presentation of the materials, his extensive experience in Ukrainian and international educational projects

Yes. It was he who sparked my interest in history even more. With such teachers I do not regret that I study on the historian. I happy to go to his classes. He is my favorite teacher. You're the best!

I like study this object!

Thanks to Igor Igorevich, I became much better understand the history of Ukraine

Completely

Desire has appeared to deepen my knowledge in this field

Yes. Aroused much interest

Not exactly

The discipline at first seemed uninteresting, but later proved to be very useful

Yes, although in the beginning it did not interest me

Yes. I really like this discipline

He could
